

Model Name - Provider	Release Date	Cut-off Date	Tokens / Pricing Notes	Context Window	Public/Private Model	Best Use Cases	Why It Fits
GPT-5.5 -OpenAI	Apr-26	Aug-25	~\$5/M input, ~\$30/M output	10,05,000	Private	Enterprise-grade reasoning, coding, creative writing, and multi-modal tasks	Strong general intelligence, reliable API, and wide integrat ecosystem
Claude Opus 4.7 - Anthropic	Apr-26	Jan-26	~\$5/M input, ~\$25/M output	10,00,000	Private	Long-form analysis, document summarization, ethical reasoning	Exceptional context window and safety alignment
Gemini 3.1 Pro - Google	Feb-26	Jan-26	~\$2/M input, ~\$12/M output	20,00,000	Private	Search-linked tasks, data analysis, and image-text fusion	Tight integration with Google tools and factual grounding
DeepSeek V4 Pro/Flash - Deepseek	Apr-26	2025	\$0.45/M input, \$0.87/M output	10,48,576	Public/Hybrid	Cost-efficient inference, multilingual tasks, and open experimentation	Offers open checkpoints and fast inference for research
Grok 4.3 - xAI	Apr-26	Dec-25	\$1.25/M input, \$2.50/M output	10,00,000	Private	Real-time social data, conversational insights, and X (Twitter) integration	Designed for dynamic, online conversational contexts
Qwen 3.6 - Alibaba	Apr-26	Early 2026	\$0.25/M input, \$1.5/M output	10,00,000	Public	Open-source development, fine-tuning, and multilingual NLP	Publicly available weights; strong Chinese-English perform
Kimi 2.6 - Moonshot AI	Apr-26	Jan-25	\$0.75/M input, \$3.50 M/output	262144	Private	Chinese enterprise workflows and document processing	Optimized for local language and business use cases
GLM 4.0 - Zhipu	Apr-26	Feb-26	\$1.05/M input, \$3.50/M output	202752	Public	Academic research, open-source experimentation, and model benchmarking	Transparent architecture and reproducible results
Gemma 4 26B A4B - Google	Apr-26	Jan-25	Free / limited	262144	Public	Lightweight deployment, edge AI, and fine-tuning	Open-source, efficient for smaller hardware setups
Mimo -v5 pro - Xiaomi	Apr-26	Dec-24	\$1/M input, \$3/M output	1048576	Private	Device-embedded assistants and IoT integration	Tailored for Xiaomi ecosystem; private and hardware-opti
